Customers per State Analysis

How are the customers distributed per state?	A customer's income does not explain it's li..	Small size vehicles have the highest med..	Dashboard displayed.
--	--	--	----------------------

Small size vehicles have the highest median claim amount (468), most of the values concentrated between 322 and 675.

Medsize vehicles have the highest claim amount (2893), but the lowest median (382).

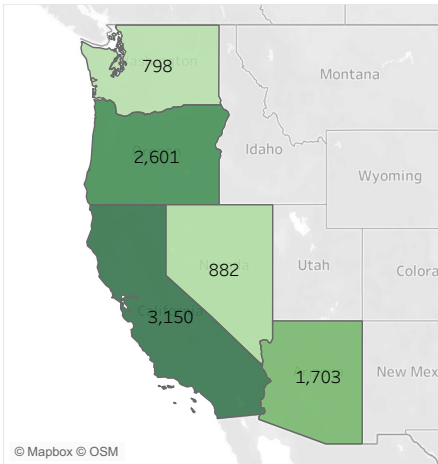

While large size vehicles might be the more expensive ones, the median of the amounts claimed is 364: lower than the small size vehicles.
